

## ROTARY SHOULDER

- 5 position seat assembly uses four-bar linkage and gas cylinder assist for quick and easy adjustment.
- Rotary motion of unilateral press arms follows the natural trajectory of the upper body while allowing for full articulation of the shoulder joint.
- 6 position adjustable handles featuring Paramount's patented Rotary Technology rotate directly at the wrist joint eliminating impingement of wrist, elbow and shoulder joints.
- Contoured back pad angled 100° for proper ergonomic function and user comfort.

Weight Stack Options	170 lbs. (77 kg).	250 lbs. (113 kg)
Machine Weight	514 lbs. (234 kg)	594 lbs. (270 kg)

Dimensions

W: 57" (145 cm)

L: 54" (137 cm)

H: 57" (145 cm)

**MODEL SP-6200**

- Read all warning labels.
  - If unit appears damaged or inoperable, do not try to use or fix. DO NOT use if weights are pinned in an elevated position. Seek staff assistance.
  - Choose light resistance when using machine for first time and train at controlled speed.
- Select seat and handle positions. Refer to adjustment guides.
- Grasp handles.
- Extend and rotate arms upward as far as comfortable and return. If you can not bring your hands together at the end of the movement, adjust handles closer to "6". If you can not comfortably extend your arms, adjust handles closer to "1".
