

TrakHandle® Pro-line

Cable Accessories

The most functionally advanced and ergonomically correct cable accessories available.

“Turn Your Existing Cable Equipment into a Functional Powerhouse”

Patent Pending

EFFICIENT

The extraordinary versatility of Trak Fitness accessories allows users to transition seamlessly through multiple exercises without changing the attachment or their grip.

UNIQUE
Three axes of rotation provide a revolutionary functionality that enables users to perform unique multi-planar exercises that are not possible with other accessories.

EFFECTIVE

Advanced rotational elements provide unrivalled ergonomics that allow users to target specific muscles while minimizing fatigue on secondary muscle groups.

SAFE

Users can now maintain proper alignment throughout all cable exercises and reduce injuries by minimizing unnatural strain on joints and ligaments.
