

ZVO Weight Room Collection

The collection of our weights features original designs from Ziva that are the product of creative redesigning of our weights to evolve into more effective functioning pieces with distinct appearance. We utilize new materials with creativity and technical expertise to make the best available weighted products on the market today.

Using high-end technology and ergonomically contoured lines we've created striking weight resistance products. Most of our line is available encased in either premium urethane or durable virgin rubber (see product features) and options of exciting colors to help transform your weight room into a powerful space.
